News Release,

January, 2012

Roll-Tite Announces Relocation of Manufacturing and Corporate Headquarters to a New Facility in Brantford Ontario.

Roll-Tite Corp., a leading manufacturer of retractable tarpaulin systems for the trucking industry, is pleased to announce the completion of relocating its manufacturing and corporate headquarters from Norwich Ontario to a new, technologically advanced, facility situated minutes from highway 403 in Brantford Ontario (see address below).

The relocation is part of the Company's previously announced restructuring, which is designed to support company growth, manufacturing and operating improvements, and proximity to distribution channels.

"We are excited to move our manufacturing facilities and corporate headquarters to Brantford Ontario" said company President, Roman Pankiw. "This move provides improved access to quality resources and strengthens our foundation to more efficiently advance product development, product quality, and customer satisfaction."

Further to Mr. Pankiw's goals, Roll-Tite has adopted Lean thinking to support its continuous improvement program. Lean principles and methodologies are strongly reflected throughout the company and highly supported by senior management. As a result, there is a passion within the organization to employ resources for the sole purpose of creating value for customers while removing waste in the process.
